ATTEMPT TO HOLD UP PAY ROLL TRAIN AT 12:30

OPTIONS HAVE BEEN SECURED ON FARM LANDS FOR BUILDING PURPOSES

HOMES FOR PEOPLE NOW SEEM ASSURED

The Charleroi Chamber of Commerce Secures An Option On the Sphar And McKean Farms In McKean Avenue Extension

27 ACRES ARE IN THE TRACT

Purposed to Raise Among the Business Interests And Citizenry $250,000 For Erection of Homes For People, to Lay Out Streets, Pave And Sewer

Sponsored by the Chamber of Commerce, a civic body that has been working on the project for some time, an option has been obtained by the Chamber on the Sphar and McKean farms in McKean Avenue extension, and the initial steps will now be taken for Charleroi expansion, the dire need of which is wellknown. The tract of land optioned has an acreage of 27 acres, and is well adapted for the purpose for which its purchase is contemplated—that of the erection of homes for the people of Charleroi and those who desire to live in the borough.

An enthusiastic meeting was held in the Chamber of Commerce rooms in the Municipal building yesterday afternoon that was attended by a large representation of the membership of the Chamber, and by other interested citizens, and while the project is fostered and abetted by the members of the Chamber, they invite the cooperation of the citizenry in the idea of a Greater Charleroi.

It is purposed to amalgamate local financial interests in the big idea to build homes for the people. The sum of $250,000 will be raised through which the ground in question can be properly sewered, streets laid out and paved, and houses erected for the people valued at $4,000 and upwards for which they can be paid for out of their earnings. The initiatory work is under way, an attorney having drawn up the necessary agreement for stock subscriptions. The laying out of lots will be forthcoming with the closing of the deal for the realty in reference.

The land in question lies just beyond Maple Creek, and is admirably adapted for a Greater Charleroi Extension movement. The soil is rich, and can be utilized for garden purposes and the lots will be subdivided so that the purchaser may have the privilege of securing whatever equity his individual needs, or ideas, dictate.

One of the promulgators of the movement stated that the editorial in the Mail to the effect that Charleroi and community needs 1,000 homes to house the people—to fill an insistent demand—was well timed; and that local public-spirited business men and citizens are going to see to it that they are forthcoming.

Auto Crashes Into Load of Pipe--Four Badly Hurt

Sleuths Probably Fatally Wounded By Bandits Who Frustrated Attempt to Hold Up Train

Pittsburgh, March 26.—(United Press). — Superintendent of the Department of Public Safety Brophy, and an unidentified bandit, were seriously injured today in a crash between two automobiles, after authorities frustrated what is believed to have been an attempt to hold up a Pennsylvania Railroad train carrying $400,000 into the mill and mining district of the upper Monongahela valley.

The injured are:

Superintendent Brophy, three fractured ribs and internal injuries.

Will McCready and Thomas Grogan, both in a serious condition.

Detectives James Hoey, John Barry and Patrick McGinnis were bruised and lacerated.

The authorities sometime ago, received a "tip" that an attempt would be made to hold up the train today.

Heavily armed with shot-guns, rifles and revolvers, 20 detectives were congregated in the City Building and sent to West Homestead.

The authorities lay in wait there for the bandits. When the outlaws received the signal of the train they ran parallel with the train. The officers jumped into their machine and pursued.

The robbers opened fire with revolvers and raced over the detour road through a strip of woods.

Firing shots at every step of the race, the police machine containing the Superintendent and five detectives, gained on the bandit machine.

The two speeding cars crashed together. Three or four bandits escaped, running through the brush to the Mesta Machine company and hid behind box cars. The fourth bandit was pinned unconscious underneath the crashed car.

Detectives are scouring the section of West Homestead in an effort to apprehend the escaped bandits.

QUARTET ARE HURT IN AUTO ACCIDENT

Occurs Near What Is Known As Nash's Hill On West Newton Road — Silbert, Pennsylvania, Parties Enroute to Charleroi

TAKEN TO LOCAL HOSPITAL

None Seriously Hurt, Except Driver, Aged 63 Years—Machine Crashes Into Wagon Loaded With Pipe, One Jamming Into Windshield

Four persons are in the Charleroi-Monessen hospital suffering from injuries received late yesterday afternoon when the automobile in which they were riding, crashed into a wagon loaded with pipe. The accident occurred near what is known as Nash's Hill on the West Newton road. Theinjured are:

MRS. BERTHA SWARTZ, age 28, cut about the face and hands; condition not serious.

SAMUEL SWARTZ, age 63, driver of the car, in serious condition.

LOUIS SWARTZ, age 23, cut by flying glass. Condition improved.

IRWIN SWARTZ, age 11, son of Mrs Bertha Swartz, cut on face and hands by flying glass. Not seriously injured.

The injured persons are residents of Silbert, Pa., a small town near Uniontown, and they were on their way to Charleroi, when the accident occurred. Samuel Swartz, driver of the car at the time of the accident, turned the machine around a sharp curve in the road. At this particular point the view of the road is cut off and Mr. Swartz, who was driving his car at a moderate rate of speed, did not see the wagon loaded with pipe, which was also headed in this direction until too late for him to stop. The machine crashed headlong into the wagon, and one of the projecting pipes jammed into the windshield into the face of Mr. Swartz, causing serious injuries to his person. The other members of the car were badly cut by the flying glass, as stated

Aid was summoned immediately by the driver of the team and the injured parties taken to the Charleroi-Moenssen hospital, where they received medical attention.

Spring Coming Finds Shortage Of Farm Labor

Harrisburg, March 26—(United Press)—While there are surplus men for nearly every other kind of work, the shortage of farm labor in Pennsylvania is increasing with approach of spring, the semi-monthly report of the Department of Labor and Industry today showed.

"We are unable to secure enough men for the farmers," was the almost universal cry from every section of the state. During the past two weeks there has been increased demand for farm hands. The supply is inadequate and when spring activities open more fully there will be a 20 per cent shortage," the Cumberland Valley farm section report read.

With exception of the Philadelphia district, building and construction were apparently opening up throughout the state. Dwelling houses of substantial type seemed to be in great demand and there was a tendency among contractors and real estate men to cater to it.

The supply of common labor generally exceeded the demand. Some sections reported though there is ample supply, conditions are such that willing workers can be placed.

The report issued from the Pittsburgh section said placement of many aged persons seeking employment in domestic and personal service was becoming a problem. "They seem to think that they can do the work and demand the wages of younger workers," the report read

Rev R. P. Graham pastor of the Bentleyville Methodist Episcopal church, presided, and representatives were present from many of the towns and cities of the community.

He said it was the prerogative and purpose of his office to cooperate to thefullest extent with the various communities of the county in law enforcement. The district attorney also mentioned the various handicaps and discouragements met with in the endeavor to enforce the law, but that it was and has been, his efforts to enforce it to the letter, so far as within his power lies

Hon. James T. Heffran of Speers, and Claude E. Towner of Monongahela candidates for representatives, were other speakers. Mr. Heffran stated that as a member of the house he had supported all measures for good government, and that it will be his province and pleasure to again do so, if re-elected. Mr. Towner also went on record in favor of strict law enforcement, and a strengthening of the cordon of the laws, insofar as is possible.

Mystery In The Killing of Woman Who Accepts Lift

New York, March 26. — (United Press). — Indiscreetly accepting a "lift" from a strange man who offered to get her a rope with which to dislodge her stalled sedan, Mrs. Maude Bauer was stabbed and shot to death within hearing of her mother and two children and other inhabitants of Chelsea, Staten Island. The murderer tossed the body from his machine into some bushes at the side of the road and made his escape. Convinced that the killer is still on Staten Island, the police are guarding all ferries plying between the island and Manhattan, Brooklyn and New Jersey.

Mrs. Bauer, beautiful wife of Walter Bauer, an electrical engineer employed by the Cadillac Motor Car Company, was driving with her mother, Mrs. George F Piero, on South avenue, yesterday, when she was forced into a sandy ditch by an approaching truck. While debating as to how to get out of her difficulty another Ford sedan drew up beside her car, and the driver asked if he could be of any assistance Mrs. Piero

Crazed by Jealousy, Heidelburg Woman Shoots And Kills Sleeping Husband Today

Pittsburgh, March 26. — (United Press).—Demented by jealousy, Mrs. Anna Alleski, 25, shot and killed her husband, Alec Alleski, 35, while he was asleep in their home in Heidelburg, today, according to a report made to the coroner by county detectives.

Two small children of the couple were in the house at the time of the shooting.

The crime was revealed when Mrs. Alleski knocked at the door of Justice of the Peace Hillen, in Heidelburg, and told Mrs. Hillen, "Tell your husband to lock me up, I have just killed my husband."

Hillen arrested the woman and immediately started investigating.

Mrs. Alleski, according to a report to the coroner, stepped quietly into her husband's room, placed the muzzle of a revolver against his temple and fired one shot. The woman then watched her husband for a few minutes to see if he moved. Suddenly realizing her act she ran to the Justice of the Peace.

"He threatened to leave me," Mrs. Alleski is said to have told Hillen. "He did not like me any longer because I was sick. I did not want to have me no more."

Public Service Commission Grants Appeal For Change of Zone—Effective March 29

Secretary Heffran was notified today by C. G. Cogswell, General Traffic Manager, that the Public Service Commission had approved the petition of the Pittsburgh Railways company, and that the change of zone fare as asked for by the Chamber of Commerce will be made on Saturday, March 29.

The Pittsburgh Railways Company, at the February meeting of the Chamber, agreed that it would at once ask the Public Service Commission for authority to change its zone fare from First to Fifth streets. This will be an over-lapping zone and means that people north-bound into Charleroi can ride to Fifth street for the same fare now paid to First street, and people south-bound out of Charleroi can get on the car at Fifth street for the same fare now paid from First street. No change will be made on the other end of the fare zone for the present, but if the present arrangement works out satisfactorily then some time in the future it will be possible to again reopen the question and possibly readjust the fare at the other end of town.

FOUR STATES NEVER LYNCHED.

Of more than usual interest, because of novelty in tabulation, are the lynching statistics just published by the Federal Council of Churches. We learn, for example, that there are only four States that have no record of a lynching at any time, Massachusetts, New Hampshire, Vermont and Rhode Island—not counting, of course, the doing to death of alleged witches in Salem and Boston something over two centuries ago. The next best record is given to four other States which lynched no more after 1886—Maine, Connecticut, New burning of the dead body of a murderer by Maine farmers last year.) The ten States that have successfully resisted the temptation to lynch during the last ten years are Delaware, Maryland, Indiana, Iowa, Idaho, Michigan, Nevada, Pennsylvania, South Dakota and Wisconsin. Seven more which achieved a clean record during the last five years are New York, Montana, Wyoming, New Mexico, Ariona, zOregon and North Dakota. Eleven which got the better of the habit during the last two years are Illinois, Kentucky, North Carolina, West Virginia, California, Colorado, Nebraska, Kansas, Ohio, Minnesota and ashington. The three which refrained all through the 1 year of 1923 (in spite of their location in the "black belt") are South Carolina, Tennessee and Alabama.

Thirty-nine States were free of lynching last year and in only nine was reported this variety of mob violence. The report does not cause them to blush by the mention of their names, but indicates them as follows: "Four of the West-Southern Central States, three of the eight Southern Atlantic States, one of the four East-South Central States, and one of the West-Northern Central States, were guilty of the crime." In all 28 persons were lynched, 26 of them negroes and 2 of these women—a record of very encouraging improvement over past years.

If it is true that jokes made a certain automobile a success, the jokes may be able to do something yet for prohibition.

MYSTERY IN THE KILLING OF WOMAN

(Continued from First Page)

told him her daughter had gone up the road to procure a rope. The strange motorist followed, overtook Mrs. Bauer, conversed with her a few seconds and then helped her into his car, according to Mrs. Piero, who added brokenly that that was the last time she saw her daughter alive.

The most mysterious feature of the horrible crime is that the shot was not heard by seven wood-choppers in a patch of timberland 1,500 feet away, nor by the inhabitants of a house 500 feet from the spot where the body was found. There is no doubt in the minds of the police that Mrs. Bauer's assailant attempted to attack her and when she resisted he first shot and then stabbed her in the throat. Dr. Mord, who examined the body at the morgue, said death must have been practically instantaneous. The soiled and disarranged condition of the victim's clothing testified to her bitter struggle.

Mrs. Bauer's husband, who was out on a job for his company, collapsed after viewing the body at the morgue. He said he could suggest no clue as to the slayer's identity.

CAP EXPLODES; FOUR ARE HURT

Four coal miners were injured yesterday morning at Banola, near Monongahela, when a dynamite cap, which had been thrown into an open grate fire at the home of Andy Gesco, exploded.

The injured men who were burned and otherwise hurt were Frank Gesco, brother of Andy Gesco; Joe Fenci, Domenick Desardi, and Nick Melovic. Andy Gesco was in in room at the time of the explosion, and escaped injury.

The men were gathered closely around the grate fire in a bedroom on the first floor engaged in conversation when Gesco began coaling the fire from a bucket of slack coal into which the dynamite cap either dropped from one of the men's clothing or had fallen from the mantel over the fireplace. A good quantity of coal had been thrown on the fire and the can did not immediately ignite. The explosion occurred so unexpectedly that none of the men could escape the shower of burning coals. Frank Gesco was the most seriously hurt as when the explosion occurred he fell backwards from his chair and struck a leg of the brass bed, sustaining a deep cut on the back of his head. The men were badly burned by the red hot coals and the force of the exploding dynamite cap, caused the small particles of coal to be imbeded in the skin of their faces and heads. A Monongahela physician was summoned, who found it necessary to treat the injuries and burns of each. Considerable damage was done the fireplace by the blast.

Why Family Expenses Are Like Automobiles

Money in the home takes the place of gas in the car. It furnishes the motive power. The pace you travel depends on the amount you "feed" the engine!

It needs a steady hand at the wheel, a sure foot on the gas and brake, in the home just as in the car. In fast spending, as in speeding, there is danger.

The cars that give best service are those that are driven carefully at moderate speed.

The family that gets along best is the one that saves consistently, spends wisely, steers carefully to reach the goal of better conditions.

Plant—and more Plant

During 1922 we added twenty millions of dollars' worth of equipment to our plant in Pennsylvania. Last year the figure was thirty millions. Those were record-breaking years. This year it will be forty millions. As far as we can see now, the coming five years will require about $173,000,000.

These figures are not of our making. The people of Pennsylvania by asking us for telephones—more and more telephones—are telling us how much new plant we must add.

Although the figures are large, we're in this business to give you all the service you need *when* you want it and *where* you want it.

That's why we're spending these millions of dollars in Pennsylvania.

And all of it is for construction—none of it goes for operating expenses. None of it goes for maintaining the equipment; although, of course, both maintenance and operating expenses increase as the telephone plant grows.

These millions must be raised largely in the form of new investments in the property.

Our business is not alone to spend this money as economically as possible. We must also, by sound business management, continue to hold your confidence, for it is to you that we must come for these new investments.

Loss of $4,500 Had When Two Garages And Autos Are Burned

Fire last night destroyed two garages and two automobiles at Donora with a total loss of $4,500.

The machines consumed were owned by Edward Jones of Belle Vernon and Harry Boyd of Donora. There was no insurance carried, and the destroyed cars and garages are a complete loss.

The second garage destroyed joined the first and was owned by the Marston-Gass Lumber company. The building, which was totally destroyed was partially covered by insurance.

The origin of flames is unknown

[illegible] for Revere's midnight ride

There has long been a controversy between the descendants of two families concerning the identity of the friend of Paul Revere who placed the signal lantern in the old North church in Boston. Some assert that the lights were placed by Robert Newman, at that time sexton of the church, others contend that it was John Pulling, an intimate friend of Revere's from the time of his boyhood. Historians for the most part now give the credit to Newman.

RESOLUTIONS OF RESPECT.

In memory of Sister Elizabeth Brynes.

It has pleased our Heavenly Father to take from our midst, Sister Elizabeth Byrnes: Her work is ended here below. She is called to a better place where pleasures never cease.

WHEREAS, We lament the loss of a faithful one, so well versed in the order, and so devoted to its welfare, Therefore be it

RESOLVED, That Iris Rebekah Lodge, 299, while bowing in humble submission to the will of Him who is ever present in the hearts of all true "Rebekahs," will mourn with those who mourn, and tender our condolement to those who were nearest and dearest to our departed sister.

In this dark world of sin and pain,
We only meet to part again,
But when we reach the heavenly shore
We shall meet to part no more
The hope that we shall see that day,
Shall chase our present grief away.
